Dear Dr. Wilkinson and Staff,

I have been a pastor in Santa Barbara for 30 years, and I have never witnessed a more powerful event than "The Great Turnaround". You were right when you said you had a unique message for Santa Barbara. That was the most convicting and compelling message I have ever heard on "LIFE". It was so much more than another message on why abortion is wrong. Because you took a stand and have been faithful to the call of God to bring this message, something broke over our churches and our community.

We have been lulled to sleep. It's time for the church in Santa Barbara to wake up. That was a wake up call. Some major strong holds over our city were broken that night. It is a rare sight to see pastors band together and pray in unity over any issue. Betsy, and the Medical Network team brought us together.

I am so blessed, and I feel so different since that night. I just pray this momentum can continue. So thank you, thank you, thank you, for being obedient.

God's Richest Blessings On You, Your Family and Your Ministry,

Pastor Marty Reitzin
